**We can order anything!**  
Please contact us if you do not see what you are looking for.

## Visit Examples

- Basic:** <10 minutes
- Med refill, mild cold, UTI, etc.
- Moderate:** 10-29 minutes
- Moderate symptoms, straightforward hormone or weight loss follow up, most orthopedic complaints, etc.
- Complex:** 30-59 minutes
- Hormone & weight loss initial visits, systemic complaints like fatigue, brain fog etc.
- Very Complex:** 60-120 minutes
- Multiple medical problems (especially uncontrolled), with or without new complaints, complex issues that have been worked up multiple times or require multiple tests, referrals or interventions.

\*Time listed includes anticipated admin time for provider as determined by the provider.

## Common Questions

**Testosterone / HRT**

- Yes, we offer hormone therapy and optimization.
- RX's are sent to the pharmacy. Price varies depending on the pharmacy they are sent to. Injectable testosterone can be as low as \$10/month (without insurance), oral progesterone around \$50/month.
- If HRT is medically indicated and think insurance will cover it, we will submit a prior auth to your insurance if requested.

**Peptides**

- No, we don't offer retatrutude. But we will order most other peptides upon request and after an evaluation and extensive risk/benefit discussion with our patients. We do not recommend peptides that lack human data, but respect our patients' right to choose - we also think this is safer than buying from an online unregulated Chinese peptide retailer

Other questions?

- Call or Text us at 480-681-6438, we are accessible and very transparent.
